Rachit Aggarwal

Senior Software Developer at SODE Counseling Services LLP |
Amity University
India

Summary

I'm a Full-Stack Web Developer specializing in building modern, scalable, responsive, and high-performance web applications and websites. I work across both frontend and backend development, combining clean user interfaces with robust, secure, and reliable backend systems. My core expertise includes PHP, WordPress, Node.js, React.js, Next.js, JavaScript, HTML5, CSS3, Bootstrap, and MySQL. I enjoy transforming ideas and business requirements into functional digital solutions that deliver a smooth user experience and measurable business value.

Frontend Development I build responsive and interactive user interfaces with a strong focus on performance, usability, and modern development practices. My frontend experience includes:

- HTML5 & CSS3
- JavaScript
- React.js
- Next.js
- Bootstrap
- Responsive & mobile-first design
- SEO-friendly frontend development
- Performance optimization

Backend Development I also work extensively on the backend, developing secure and scalable systems that power web applications and business websites. My backend expertise includes:

- PHP & WordPress development
- Node.js
- MySQL & database management
- REST API integration & development
- Third-party API integrations
- Custom WordPress functionality & plugins
- Authentication and backend logic
- Security and performance optimization

I have experience developing and maintaining custom websites, WordPress websites, landing pages, dynamic web applications, API-integrated solutions, and business-focused digital platforms. I focus on writing clean, maintainable, optimized, and scalable code, while keeping SEO, website speed, security, responsiveness, and user experience in mind.

What I Bring

- Full-Stack development capabilities — Frontend + Backend
- Strong problem-solving and debugging skills
- Performance and SEO-focused development
- Secure and scalable web solutions
- API integration and custom functionality
- Ability to understand business requirements and convert them into practical technical solutions
- Commitment to continuous learning and modern web

technologies I'm passionate about technology, problem-solving, and continuous improvement, and I enjoy working on challenging projects where I can build, optimize, and deliver digital solutions that create real impact. Always learning. Always building. Always improving.
